Australia (AICS)	Compliant
Japan (METI)	Compliant
Canada (DSL)	Compliant
China (IECSC)	Compliant
Brazil	Compliant
Korea (KECI)	Compliant
Philippines (PICCS)	Contact Us

AC DermaPeptide Revitalizing PF Code: 20454PF

Attention must be paid to the use of AC DermaPeptide Revitalizing PF in the equivalent of OTC formulations (eg. quasi-drugs in Japan, or therapeutic goods in Australia). Some countries maintain restricted inventories of raw materials that can be used in those applications so more detailed guidance may be required.

AC DermaPeptide Revitalizing PF and its components and impurities are in compliance with the rules governing cosmetic products in the European Union (Directive 76/768/ECC & Regulation No. 1223/2009). The recommended use levels for AC DermaPeptide Revitalizing PF is 1.00 – 4.00%.

AC DermaPeptide Revitalizing PF is in compliance with the standardized set of rules developed and approved by the NPA (Natural Products Association).

AC DermaPeptide Revitalizing PF is considered a non-hazardous material. All significant toxicological routes of absorption have been considered as well as the systemic effects and margin of safety (MoS) based on a no observed adverse effects level (NOAEL). Due to the restriction placed on animal testing of cosmetic raw materials, and Active Concepts, LLC's internal non-animal testing policy, this product was not tested for NOAEL.

AC DermaPeptide Revitalizing PF was tested using *in vitro* dermal and ocular irritation models. This product was found to be non-irritating in both models.

To our knowledge the above material is free of CMR (*) substances, as defined according to Regulation (EC) No 1272/2008 and Cosmetic Regulation (EC) No 1223/2009 as amended.

(*) Carcinogenic, Mutagenic, toxic for Reproduction

Active Concepts, LLC certifies that to the best of our knowledge our product does not contain any material listed on California Proposition 65.

AC DermaPeptide Revitalizing PF is REACH Compliant and free of the following:

- Formaldehyde or formaldehyde donors
- Glycol ethers/solvents
- Gluten
- Lactose
- Nanoparticles
- Nitrosamines
- Palm oil/palm kernel oil (or derivatives)
- Parabens
- Paraffin/petroleum products
- Phthalates
- Polyethylene glycol (PEG)
- Residual solvents
- Sulfates
