Product Name: AC Party Face Pom

Code: 20447

INCI Name: Water & Punica Granatum Extract & Citrus Aurantium Dulcis (Orange) Flower Extract

AC Party Face Pom is manufactured by first processing (mechanical grinding/milling) *Punica granatum* and *Citrus aurantium dulcis* flowers. The plants are then extracted in water before filtration.

The *Punica granatum* extract and *Citrus aurantium dulcis* (Orange) flower extract are both of natural origin. They are also both used commonly in food and nutritional wellness products, such as orange flower water which is an ingredient derived from *Citrus aurantium* flowers that is found in many Mediterranean dishes and desserts like orange blossom cream.<sup>1</sup> Therefore they may be classified as Generally Recognized as Safe (GRAS) according to the FDA's Federal Food, Drug and Cosmetic Act.<sup>2</sup>

The act states:

Any substance that is intentionally added to food is a food additive, that is subject to premarket review and approval by FDA, unless the substance is generally recognized, among qualified experts, as having been adequately shown to be safe under the conditions of its intended use, or unless the use of the substance is otherwise excluded from the definition of a food additive.<sup>2</sup>

AC Party Face Pom was tested using *in vitro* dermal and ocular irritation models. This product was found to be non-irritating in both models. The full report is attached for reference.

The above information supports the safety of AC Party Face Pom in cosmetic applications at use levels of 2.0 – 5.0%. No further testing is required at this time.
