Active.Lite[®] Sample Formulations

Code: 22040
INCI Name: Saccharomyces/ Grape Ferment Extract
CAS #: 84929-27-1
EINECS #: 284-511-6

Sample Finished Formulation Guidelines

Demonstration Lotion
NCPA10-17 – Demonstration Lotion Active.Lite[®] + Phytofuse Renew[™]

Version#1/12-29-14/Form#87

Demonstration Lotion: Active.Lite® + Phytofuse Renew™

Formulation Code: NCPA10-17

Ingredient	Trade Name/Vendor	%
Phase I		
Base Lotion	Cetaphil®/Galderma	QS
Selaginella Lepidophylla Extract	Phytofuse Renew™/Active Concepts, LLC	5.00
Saccharomyces/Grape Ferment Extract	Active.Lite® / Active Concepts, LLC	5.00

Manufacturing Process:

Phase I: In main beaker, charge Cetaphil® Lotion and begin propeller mixing. A vortex should form. Add Phytofuse Renew™ and Active.Lite® individually allowing complete dispersion between additions.
