| Flavor | Juicy Lips 287-969/ American Flavors and Fragrances | 1.00 |

Manufacturing Process:

Phase I: In Main tank, combine Phase I ingredients using propeller agitation and heat to 78°-80°C. Mix for 15 minutes.

Phase II: Begin force cooling. When temperature cools to 60°C switch mixing to side sweep agitation. Charge in Phase II ingredients and mix down to 40°C. Pour into suitable containers.
