

ABS Viola Tricolor Extract PF Relevant Patents

This document may be used as a reference to patents that are possibly relevant to the use of our product in cosmetic applications. Active Concepts recommends that each end product be thoroughly researched and reviewed prior to launching a product with specific claims. We have presented these patents in good faith, however, Active Concepts cannot warranty that these are the only existing patents. It is imperative that each customer search for relevant patents to ensure infringement does not occur.

Code: 10346PF
INCI Name: Hydrolyzed Viola Tricolor Extract
CAS #: 9015-54-7
EINECS #: 310-296-6

Type of Patent	Patent Number	Title of Patent	Comments
