

# AcquaSeal® Algae Sample Formulations

**Code:** 20852  
**INCI Name:** Chlamydomonas Reinhardtii Extract  
**CAS #:** N/A  
**EINECS #:** N/A

---

## Sample Finished Formulations

**Anti-Fatigue Eye Serum**  
FNTA01-09 – Anti-Fatigue Eye Serum

## Anti-Fatigue Eye Serum Formulation Code: FNTA01-09

Ingredient	Trade Name/Vendor	%
<b>Phase I</b>		
Dimethicone and Dimethicone/PEG-10/15 Crosspolymer	KSG-210/Shin-Etsu	<b>7.00</b>
Acrylates/Dimethicone Crosspolymer	SilDerm® Acrylate/Active Concepts	<b>4.00</b>
Dimethicone (and) Dimethicone/Vinyl Dimethicone	Chemsil K-61/Chemsil Silicones	<b>12.00</b>
Cyclomethicone & Dimethicone	SilDerm® Smoothing/Active Concepts	<b>14.00</b>
<b>Phase II</b>		
Water	Water	<b>37.25</b>
Propylene Glycol	Propylene Glycol/Spectrum Chemical	<b>10.00</b>
Lactobacillus Ferment	Leucidal® Liquid SF/Active Micro Technologies	<b>4.00</b>
Sodium Citrate	Sodium Citrate/Spectrum Chemical	<b>0.25</b>
Sodium Chloride	Sodium Chloride/Spectrum Chemical	<b>0.50</b>
<b>Phase III</b>		
Hydrolyzed Wheat Protein	AC Dermapeptide Tightening PF/Active Concepts	<b>5.00</b>
Griffonia Simplicifolia Seed Extract	AC Griffonia Lysate Advanced/Active Concepts	<b>2.00</b>
Water & Lactobacillus Ferment Lysate & Camellia Sinensis Leaf Extract & Punica Granatum	Revital-Eyes/Active Concepts	<b>2.00</b>
Chlamydomonas reinhardtii Extract	AcquaSeal® Algae/Active Concepts	<b>2.00</b>

### Manufacturing Process:

1. Mix Phase I well.
2. Once Phase I is mixed, add Phase II ingredients one at a time to ensure incorporation before adding the next.
3. Add Phase III ingredients one at a time to the batch, mix well.
