# ABS Apple AHA'S

## Start:

Our suppliers in North America, Europe, and Asia all grow their apples locally according to organic farming regulations.

## Final stop:

The resulting product is our ABS Apple AHA's - an ingredient blended with apple extracts and acids that delivers a potent combination for proper exfoliation, resulting in smoother and healthier looking skin.

Once the raw material arrives at our manufacturing site, the whole apple is mechanically processed, followed by an aqueous extraction and the addition of acids.

## Road Map Tour

### An Apple A Day Keeps The Dead Skin Cells Away

We believe in sustainability practices and protecting the environment and community. Therefore, our suppliers are chosen with intention. Our North American supplier in New Jersey is family owned and started on the brink of the Great Depression by a young man taking a chance for his family. A now third generation business, they recycle all cardboard boxes, replaced all lights with energy efficient fluorescent fixtures that consume 60% less energy, and sell over 250 organic products. Our European supplier in Val di Non, Trentino, has an orchard that extends over eleven hectares of mountain terrain. Not only do they promote biodiversity and not use synthetic pesticides or fertilizers, but they have created a refuge for plants, insects, and a diverse ecosystem. Lastly, our supplier in Taiwan, Nantou Area, strictly follows safety standards, ensures their crops receive natural sunlight, and never use herbicides. Our ethical collaboration has resulted in ABS Apple AHA's - an ingredient for cellular renewal.

We want to be transparent in our supply chain from harvest to production. It's important to know where our raw materials come from and where they are going.

## Safety & Toxicology

Non-phototoxic

Non-irritant to skin

Non-sensitizing

Non-irritant to eyes

Non-harmful to aquatic life

## Regulatory

INCI: Water & Propylene Glycol & Malic Acid & Pyrus Malus (Apple) Fruit Extract & Glycolic Acid & Lactic Acid & Citric Acid

CAS: 7732-18-5 & 57-55-6 & 97-67-6 & 85251-63-4 & 79-14-1 & 50-21-5 & 77-92-9

EUROPE: Compliant

USA: Compliant

JAPAN: Compliant

CHINA: Compliant

GMO FREE

## Environmental Impact

Active Concepts Production

0.202 kg  
CO2e per kg

1.106 kW  
energy per kg

89.9 %  
Biodegradable  
after 28 days

0.313 litres  
water per kg

0.067 kg  
compost per kg

## Animal Welfare

Never tested on animals and made from non-animal-derived ingredients. Neither we or our supply chain have allowed contact with any animal products, animal by-products, or derivatives.

## Ethical Trade

Being a business that has endured the Great Depression, WWII, and riots, they undoubtedly support moral business practices and an environment where employees feel like family.

## Community Welfare

Our North America supplier participates in the Big Brother Big Sister program, a one-on-one mentoring relationship to support social and emotional development of children in need.

## Specification

ORIGIN: Plant, Synthetic

PRESERVATIVES: None

APPEARANCE: Orange Liquid

SOLVENTS: Water & Propylene Glycol

USE LEVEL: 1.0 - 10.0%

Version#1/03-15-23/Form#163
