ABS Coconut Water PF

Start:

Coconuts are sourced from Hawaii and transported to our three manufacturing sites: USA, Italy, and Taiwan.

Final stop:

The final product, ABS Coconut Water PF, is completed to deliver intense nourishing benefits to the skin and the hair!

Road Map Tour

The Cradle to Cradle approach maximizes sustainable sourcing and use of raw material components

Active Concepts sources coconuts from the tropical islands of Hawaii, USA. The semi-tropical climate of the Hawaiian islands provides the perfect home for palm trees. With palms reaching almost one hundred feet in height, the hot and humid weather provides ideal growing conditions for coconuts year-round. On average, a healthy palm tree can yield up to eighty coconuts per year. Coconuts offer farmers a sustainable source of income and opportunity because palm trees live and produce coconuts for decades. After harvest, coconut trees continue to replenish and reproduce, providing a sustainable supply of product.

Whole coconuts are transported to our facilities in the USA, Italy, and Taiwan for processing. Optimizing a Cradle to Cradle approach, we utilize every part of the coconut to minimize waste production. This sustainable methodology maximizes the yield of ingredient variety from the coconuts. For example, one whole coconut can provide raw material components to create coconut water, milk, shell scrub, antifungal, sensorials, and other cosmetic ingredients like ABS Coconut Water PF.

We are transparent in our supply chain from harvest to production. It's important to know where our raw materials come from and where they are going.

Safety & Toxicology

Non-phototoxic

Non-irritant to skin

Non-sensitizing

Non-irritant to eyes

Non-harmful to aquatic life

Regulatory

INCI: Cocos Nucifera (Coconut) Water

CAS: 8001-31-8

EUROPE: Compliant

USA: Compliant

JAPAN: Compliant

CHINA: Compliant

Specification

ORIGIN: Botanical/Bacteria PRESERVATIVES: None

APPEARANCE: Clear to SOLVENTS: None

Hazy Liquid USE LEVEL: 1 - 10%

Environmental Impact

Active Concepts Production

0.052 kg CO2e per kg

0.015 kW energy per kg

87.35 % Biodegradable after 28 days

0.083 litres water per kg

0.111 kg compost per kg

Animal Welfare

Never tested on animals and made from non-animal-derived ingredients. Neither we or our supply chain have allowed contact with any animal products, animal by-products, or derivatives.

Ethical Trade

Our sources practice natural farming techniques. Also referred to as "do-nothing" farming, this holistic approach to modern day agriculture is intended to mimic nature. This method encourages the natural biodiversity of the farm area to thrive.

Community Welfare

Our suppliers take special care of their workers and prioritize their safety, work conditions, and well-being. Our suppliers support their local economy by providing year-round work opportunities within the community.
