## ACB Kale Protein Blend

### Code: 20036

Attention must be paid to the use of ACB Kale Protein Blend in the equivalent of OTC formulations (eg. quasi-drugs in Japan, or therapeutic goods in Australia). Some countries maintain restricted inventories of raw materials that can be used in those applications so more detailed guidance may be required.

ACB Kale Protein Blend and its components and impurities are in compliance with the rules governing cosmetic products in the European Union (Directive 76/768/ECC & Regulation No. 1223/2009). The recommended use levels for ACB Kale Protein Blend is 1.00 – 10.00%.

ACB Kale Protein Blend is in compliance with the standardized set of rules developed and approved by the NPA (Natural Products Association).

ACB Kale Protein Blend is considered a non-hazardous material. All significant toxicological routes of absorption have been considered as well as the systemic effects and margin of safety (MoS) based on a no observed adverse effects level (NOAEL). Due to the restriction placed on animal testing of cosmetic raw materials, and Active Concepts, LLC's internal non-animal testing policy, this product was not tested for NOAEL.

ACB Kale Protein Blend was tested using *in vitro* dermal and ocular irritation models. This product was found to be non-irritating in both models.

To our knowledge the above material is free of CMR (\*) substances, as defined according to Regulation (EC) No 1272/2008 and Cosmetic Regulation (EC) No 1223/2009 as amended. Products supported for Personal Care applications will not be classified as CMR (\*), as defined by (EC) 1272/2008 on the Classification, Labelling and Packaging of Substances and Mixtures, unless supported by a positive SCCS opinion.

(\*) Carcinogenic, Mutagenic, toxic for Reproduction

Active Concepts, LLC certifies that to the best of our knowledge our product does not contain any chemicals known or suspected by the State of California to cause cancer or reproductive toxicity as listed under the California Safe Cosmetics Act & Proposition 65.

Active Concepts, LLC certifies that ACB Kale Protein Blend does not contain any materials prohibited by Halal laws.

ACB Kale Protein Blend contains less than 1 ppm furocoumarin content.

As of June 15, 2021, ACB Kale Protein Blend does not contain any substances present on the so called "candidate list" provided by the European Chemicals Agency (ECHA). We further certify that this material has not been manufactured using any of the species listed in the CITES Appendices as of June 15, 2021.

ACB Kale Protein Blend is REACH Compliant and free of the following:

- |                                       |   |
|---------------------------------------|---|
| • Additives                           | • Palm oil/palm kernel oil (or derivatives) |
| • Aflatoxins                          | • Parabens                                  |
| • Formaldehyde or formaldehyde donors | • Paraffin/petroleum products               |
| • Glycol ethers                       | • Pesticide residues                        |
| • Gluten                              | • Phthalates                                |
| • Lactose                             | • Polyethylene glycol (PEG)                 |
| • Microplastics                       | • Residual solvents                         |
